ConsentOS

Safe Harbor

Migrating from Vishwaas to ConsentOS

THE RENEWAL MOMENT

Vishwaas AI's free tier ends June 30, 2026. Renewal is the moment to reassess fit. The question is not whether your consent capture works. It is whether your compliance posture survives an RBI or IRDAI inspection.

THE GAP

What Vishwaas covers

- Consent capture and collection
- SHA-256 proof of consent
- Notices in 22 languages. ConsentOS runs English today, Hindi and Eighth Schedule on the roadmap.

What ConsentOS adds

+ Legal Obligation Override register
+ Denial register for declined erasures
+ Compliance Vault evidence file
+ Signed, tamper-evident consent ledger

Consent capture alone does not resolve the conflict between sectoral retention mandates (RBI, IRDAI, PMLA) and the DPDP right to erasure. That conflict is what an inspector tests.

MIGRATION IN 14 DAYS

1. **Migration call**
   We map your Vishwaas configuration against your retention obligations.
2. **Import and configure**
   Your consent history transfers. The chain of custody continues unbroken.
3. **Live**
   Your team operates on ConsentOS before the Vishwaas tier reverts to paid.

THE OFFER

Implementation waived. **Rs.34,999/mo Scale tier.**

12-month committed term. Available through September 30, 2026.

Conditions: proof of an active Vishwaas account, annual commitment on the Scale tier.
